#### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements concerning our business, operations and financial performance and condition, as well as our plans, objectives and expectations for our business, operations and financial performance and condition. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "anticipate," "assume," "believe," "contemplate," "continue," "could," "due," "estimate," "expect," "goal," "intend," "may," "objective," "plan," "predict," "potential," "positioned," "seek," "should," "target," "will," "would" and other similar expressions that are predictions of or indicate future events and future trends, or the negative of these terms or other comparable terminology.

These forward-looking statements include, but are not limited to, statements about:

- our plans to modify our current products, or develop new products;
- the expected growth of our business and organization;
- our expectations regarding the size of our sales organization and expansion of our sales and marketing efforts;
- our ability to retain and recruit key personnel, including the continued development of a sales and marketing infrastructure;
- our ability to obtain and maintain intellectual property protection for our products;
- our ability to expand our business into new geographic markets;
- our compliance with extensive Nasdaq requirements and government laws, rules and regulations both in the United States and internationally;
- our estimates of expenses, ongoing losses, future revenue, capital requirements and our need for, or ability to obtain, additional financing;
- our ability to identify and develop new and planned products and/or acquire new products;
- the expectations regarding the impact of the COVID-19 pandemic on our business;
- existing regulations and regulatory developments in the United States, Canada and other jurisdictions;
- · the impact of laws and regulations;
- our financial performance;
- the period over which we estimate our existing cash, cash equivalents and available-for-sale investments will be sufficient to fund our future operating expenses and capital expenditure requirements;
- · our anticipated use of our existing resources; and
- developments and projections relating to our competitors or our industry.

We believe that it is important to communicate our future expectations to our investors. However, there may be events in the future that we are not able to accurately predict or control and that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. These forward-looking statements are based on management's current expectations, estimates, forecasts and projections about our business and the industry in which we operate and management's beliefs and assumptions and are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors that are in some cases beyond our control. As a result, any or all of our forward-looking statements in this Quarterly Report on Form 10-Q may turn out to be inaccurate. Factors that may cause actual results to differ materially from current expectations include, among other things, those listed under "Risk Factors" and elsewhere in this Quarterly Report on Form 10-Q. Potential investors are urged to consider these factors carefully in evaluating the forward-looking statements. These forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. We assume no obligation to update or revise these forward-looking statements for any reason, even if new information becomes available in the future.

You should not rely upon forward-looking statements as predictions of future events. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances reflected in the forward-looking statements will be achieved or occur. We undertake no obligation to update publicly any

forward-looking statements for any reason after the date of this Quarterly Report on Form 10-Q to conform these statements to actual results or to changes in our expectations.

You should read this Quarterly Report on Form 10-Q and the documents that we reference in this Quarterly Report on Form 10-Q and have filed with the SEC as exhibits to the Quarterly Report on Form 10-Q with the understanding that our actual future results, levels of activity, performance and events and circumstances may be materially different from what we expect.

Notes to Consolidated Condensed Financial Statements (Unaudited)

#### **NOTE 1 - NATURE OF OPERATIONS**

MedAvail Holdings, Inc., or MedAvail, or the Company, a Delaware corporation formerly known as MYOS RENS Technology, is a pharmacy technology and services company that has developed and commercialized an innovative self-service pharmacy, mobile application, kiosk and drive-thru solution. The Company's principal technology and product is the MedCenter, a pharmacist controlled, customer-interactive, prescription dispensing system akin to a "pharmacy in a box" or prescription-dispensing ATM. The MedCenter facilitates live pharmacist counseling via two-way audio-video communication with the ability to dispense prescription medicines under pharmacist control. The Company also operates SpotRx, or the Pharmacy, a full-service retail pharmacy utilizing the Company's automated pharmacy technology.

#### **NOTE 2 - GOING CONCERN**

Relevant accounting standards require that management make a determination as to whether or not substantial doubt exists as to our ability to continue as a going concern. If substantial doubt does exist, then management should determine if there are plans in place which alleviate that doubt. Since inception through March 31, 2022, the Company continually incurred losses from operations which have been financed primarily by net cash proceeds from the sale of stock from private placements, the sale of redeemable preferred stock and debt. Net cash used in operating activities for three months ended March 31, 2022 and 2021 was \$13.3 million and \$9.8 million, respectively. As of March 31, 2022, the Company had \$5.3 million in cash and cash equivalents and an accumulated deficit of \$205.1 million.

In April 2022, the Company completed a private placement, pursuant to which the Company received \$40.0 million in gross proceeds, with an additional \$10.0 million in anticipated gross proceeds to be received upon the second close expected to occur on July 1, 2022, subject to the satisfaction or waiver of the conditions to closing, before deducting placement agent commissions and other offering expenses. Additionally, the private placement included warrants, some of which may be callable at the Company's option beginning on each of the 12 month and 24 month anniversaries of the warrant issuance dates and subject to the satisfaction of certain pricing conditions relating to the trading of the Company's shares. See Note 13 for further information regarding the private placement warrants.

Due to the Company's significant and ongoing cash requirements to fund operations, management determined that there is substantial doubt as to the Company's ability to continue as a going concern. The Company added liquidity resources in 2021 through a senior secured term loan facility with Silicon Valley Bank as described in Note 8, pursuant to which the Company borrowed \$10.0 million in aggregate initial term loans. Additionally, as referenced above, the Company raised \$40.0 million in gross proceeds through a private placement. There can be no assurance that the steps management is taking will be successful. If the Company is unable to raise additional capital in sufficient amounts or on acceptable terms, the Company may have to significantly reduce operations or delay, scale back or discontinue development and expansion plans. The consolidated condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty. The Company's ultimate success will largely depend on continued development and deployment of MedCenter kiosks and SpotRx pharmacy operations and the ability to raise significant additional funding.

#### **NOTE 3 - BASIS OF PRESENTATION**

The accompanying unaudited consolidated condensed financial statements as of March 31, 2022 and for the three months ended March 31, 2022 have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for unaudited interim financial information. Accordingly, the unaudited interim consolidated condensed financial statements do not include all of the information and footnotes required by GAAP for audited financial statements. The consolidated condensed balance sheet as of December 31, 2021 was derived from the Company's audited consolidated financial statements but does not include all disclosures required by GAAP for audited financial statements. In the opinion of the Company's management, the interim information includes all adjustments, which include normal recurring adjustments, necessary for a fair statement of the results for the interim periods. The footnote disclosures related to the interim financial information included herein are also unaudited. Such financial information should be read in conjunction with the consolidated financial statements and related notes thereto for the year ended December 31, 2021 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, which was filed with the Securities and Exchange Commission, or SEC on March 29, 2022, or the 2021 Form 10-K.

The preparation of financial statements in accordance with US GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. Actual results could differ from those estimates. Estimates are used in accounting for, among other things, revenue recognition, contract loss accruals, excess, slow-moving and obsolete inventories, product warranty accruals, loss accruals on service agreements, share-based compensation expense, allowance for doubtful accounts, depreciation and amortization and in-

process research and development intangible assets, and impairment of long-lived assets and contingencies. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the consolidated condensed financial statements in the period they are deemed to be necessary.

#### Risks and uncertainties relating to COVID-19

The Company bases its estimates on the information available at the time, its experiences and various other assumptions believed to be reasonable under the circumstances including estimates of the impact of COVID-19. The extent to which COVID-19 impacts the Company's business and financial results will depend on numerous evolving factors, including but not limited to, the severity and duration of COVID-19, the extent to which it will impact our clinic customers, employees, suppliers, vendors, and business partners. The Company assessed certain accounting matters that require consideration of estimates and assumptions in context with the information reasonably available to the Company and the unknown future impacts of COVID-19 as of March 31, 2022 and through the date of this report. The accounting matters assessed included, but were not limited to, the Company's recoverability of, intangible and other long-lived assets including operating lease right-of-use assets. The Company's future assessment of the magnitude and duration of COVID-19, as well as other factors, could result in material impacts to the Company's consolidated condensed financial statements in future reporting periods. Adjustments may be made in subsequent periods to reflect more current estimates and assumptions about matters that are inherently uncertain. Actual results could differ from these estimates and any such differences may be material to the Company's financial statements.

#### Principles of consolidation

The unaudited consolidated condensed financial statements include the accounts of all entities controlled by MedAvail Holdings, Inc., which are referred to as subsidiaries. The Company's subsidiaries include, MedAvail Technologies, Inc., MedAvail Technologies (US), Inc., MedAvail Pharmacy, Inc., and MedAvail, Inc. The Company has no interests in variable interest entities of which the Company is the primary beneficiary. All intercompany balances and transactions have been eliminated.

#### Reclassifications

During the fourth quarter of 2021, management reclassified certain operating expenses to reflect the costs attributable to pharmacy operations. Specifically, certain costs were reclassified from general and administrative expenses, to pharmacy operations expenses and selling and marketing expenses. This reclassification had no impact on the operating loss subtotal within the consolidated statements of operations and comprehensive loss. The effect of the reclassifications within the consolidated condensed statement of operations and comprehensive loss for 2021 is as follows (in thousands):

	Three Months Ended March 31, 2021					
		Current presentation		As previously reported		Change
Pharmacy operations	\$	2,593	\$	1,911	\$	682
General and administrative		5,676		6,515		(839)
Selling and marketing		1,534		1,377		157
	\$	9,803	\$	9,803	\$	_

#### NOTE 4 - RECENT ACCOUNTING PRONOUNCEMENTS

Measurement of Credit Losses on Financial Statements

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments-Credit Losses (Topic 326)"- Measurement of Credit Losses on Financial Instruments", ("ASU 2016-13"), supplemented by ASU 2018-19, "Codification Improvements to Topic 326, Financial Instruments – Credit Losses", ("ASU 2018-19"). The new standard requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. ASU 2016-13 became effective for Public Business Entities who are SEC filers for fiscal years beginning after December 15, 2019, other than smaller reporting companies, all other public business entities and private companies, with early adoption permitted. This ASU will be effective beginning in the first quarter of our fiscal year 2023. The Company is currently evaluating the impact that this new guidance will have on its consolidated condensed financial statements and related disclosures.

#### **Recently Adopted Accounting Standards**

There were no recently issued and effective authoritative guidance that is expected to have a material impact on the Company's consolidated condensed financial statements through the reporting date.

#### NOTE 5 - EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing net income or loss available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings (loss) per share is computed by dividing net income or loss available to common stockholders by the weighted-average number of common shares plus the effect of dilutive potential common shares outstanding during the period.

The following table presents warrants included in weighted average shares outstanding due to their insignificant exercise price, during the period they were outstanding up to when they were exercised. After these warrants were exercised the related issued and outstanding common shares are included in weighted average shares outstanding:

Shares	Issuance Date	Exercise Date
118,228	May 9, 2018	May 10, 2021
309,698	February 11, 2020	May 10, 2021
84,911	June 29, 2020	May 10, 2021
39,208	November 18, 2020	May 10, 2021
19,310	November 18, 2020	Outstanding

During the three months ended March 31, 2022 and 2021, there was no dilutive effect from stock options or other warrants due to the Company's net loss position. Weighted average shares for historical periods have been adjusted for the effect of the 1.26 for 1 split on November 17, 2020. The following table sets forth the computation of basic and diluted earnings per share.

	 Three Months Ended March 31,			
(in thousands)	2022	2021		
Net loss - basic and diluted	\$ (13,022)	\$ (9,452)		
Weighted average shares - basic and diluted	32,921,969	34,439,953		
Net loss per share - basic and diluted	\$ (0.40)	\$ (0.27)		

As of March 31, 2022 and 2021, there were 4.4 million and 2.5 million, respectively, of option awards outstanding that were not included in the diluted shares calculation because their inclusion would have been antidilutive.

#### **NOTE 6 - FAIR VALUE MEASUREMENTS**

Assets and liabilities measured at fair value on a recurring basis were as follows:

(in thousands)	March 31, 2022		Level 1		Level 2		Level 3
Assets:							
Cash and cash equivalents	\$	5,274	\$	5,274	\$	_	\$ _
Restricted cash		676		676		_	_
Total assets	\$	5,950	\$	5,950	\$	_	\$ _
					Fai	ir Value Hierarchy	
(in thousands)		December 31, 2021	Level 1		Level 2		Level 3
Assets:		_					
Cash and cash equivalents	\$	19,689	\$	19,689	\$	_	\$ _
Restricted cash		400		400		_	_
Total assets	\$	20,089	\$	20,089	\$	_	\$ _

Fair Value Hierarchy

The carrying amount of the Company's term loan approximates fair value based upon market interest rates available to us for debt of similar risk and maturities, a Level 2 input. Refer to Note 8, Debt, for further information.

#### NOTE 7 - BALANCE SHEET AND OTHER INFORMATION

#### Restricted cash

The Company considers cash to be restricted when withdrawal or general use is legally restricted. During the year ended December 31, 2021, the Company recovered the prior \$0.06 million restricted cash balance that was held as a guarantee for certain purchasing cards. During the same period, pursuant to a Loan and Security Agreement with Silicon Valley Bank (see Note 8), the Company issued letters of credit to secure certain operating leases, and the Company is required to maintain a \$0.68 million balance with the bank to secure the outstanding letters of credit. Due to the nature of the deposit, the balance is classified as restricted cash. Restricted cash is included in the balance for cash presented in the statements of cash flows.

#### **Inventory**

The following table presents detail of inventory balances:

	N	March 31,		ecember 31,		
(in thousands)		2022		2022 2		2021
Inventory:						
MedCenter hardware	\$	1,589	\$	1,201		
Pharmaceuticals		2,904		2,150		
Spare parts		595		565		
Total inventory	\$	5,088	\$	3,916		

Pharmaceutical inventory was recognized in pharmacy and hardware cost of products sold at \$7.9 million and \$3.1 million during the three months ended March 31, 2022 and 2021, respectively. MedCenter hardware was recognized in pharmacy and hardware cost of products sold at \$0.1 million and \$0.2 million during the three months ended March 31, 2022 and 2021, respectively.

#### Property, plant and equipment

The following tables present property, plant and equipment balances:

		March 31,		 December 31,
(in thousands)	Estimated useful lives		2022	2021
Property, plant and equipment:				
MedCenter equipment	8 years	\$	6,861	\$ 5,875
IT equipment	1 - 3 years		2,373	2,361
Leasehold improvements	lesser of useful life or term of lease		903	880
General plant and equipment	5 - 8 years		603	603
Office furniture and equipment	5 - 8 years		464	394
Vehicles	5 years		54	54
Construction-in-process			680	1,021
Total historical cost			11,938	11,188
Accumulated depreciation			(5,763)	(5,496)
Total property, plant and equipment, net		\$	6,175	\$ 5,692

Depreciation expense of property and equipment was \$0.3 million and \$0.3 million for the three months ended March 31, 2022 and 2021, respectively. Depreciation expense included in pharmacy and hardware cost of products sold was \$0.03 million and \$0.05 million for the three months ended March 31, 2022 and 2021, respectively.

# **Intangible assets**

The following table presents intangible asset balances:

	March 31,	December 31,
(in thousands)	2022	2021
Gross intangible assets:		
Intellectual property	\$ 3,857	\$ 3,857
Software	5,064	4,475
Website and mobile application	583	583
Total intangible assets	9,504	8,915
Accumulated amortization:		
Intellectual property	(3,857)	(3,857)
Software	(2,299)	(2,175)
Website and mobile application	(583)	(583)
Total accumulated amortization	(6,739)	(6,615)
Total intangible assets, net	\$ 2,765	\$ 2,300

Amortization expense of intangible assets was \$0.12 million and \$0.03 million for the three months ended March 31, 2022 and 2021, respectively, and are included in operating expenses.

#### Lessee leases

Balance sheet amounts for lease assets and leases liabilities are as follows:

	N	March 31,	De	cember 31,
(in thousands)		2022		2021
Assets:				
Operating	\$	2,416	\$	2,376
Finance		212		162
Total assets	\$	2,628	\$	2,538
Liabilities:			-	
Operating:				
Current	\$	626	\$	599
Long-term		1,996		1,947
Finance:				
Current		107		83
Long-term		106		80
Total liabilities	\$	2,835	\$	2,709

The following table summarizes the weighted-average remaining lease term and weighted-average discount rate related to the Company's leases as follows:

	March 31,	December 31,
(in thousands)	2022	2021
Finance leases:		
Weighted-average remaining lease term (years)	2.2	1.5
Weighted-average discount rate	8.4 %	8.8 %
Operating leases:		
Weighted-average remaining lease term (years)	4.1	4.2
Weighted-average discount rate	6.9 %	6.9 %

Maturities of operating leases liabilities are as follows, in thousands:

Remaining period in 2022	\$ 602
2023	757
2024	617
2025	534
2026	468
2027	64
Thereafter	_
Total lease payments	 3,042
Less: present value discount	(420)
Total leases	\$ 2,622

Maturities of finance lease liabilities are as follows, in thousands:

Remaining period in 2022	\$ 92
2023	91
2024	47
2025	5
2026	_
2027	_
Thereafter	_
Total finance lease payments	235
Less: imputed interest	(22)
Total leases	\$ 213

Operating lease expense was \$0.2 million and \$0.2 million for the three months ended March 31, 2022 and 2021, respectively.

# NOTE 8 - DEBT

The following table presents debt balances at March 31, 2022 and December 31, 2021:

	March 31,	December 31,
(in thousands)	2022	2021
Term loan	10,100	10,070
Term loan issuance costs, net	(492)	(532)
Total debt, net	9,608	9,538
Less short term debt	_	_
Long-term debt, net	\$ 9,608	\$ 9,538

# Term loan

The Term loan bears interest at a floating rate equal to the greater of 7.25% or the Prime Rate plus 4.0% (7.25% at March 31, 2022). The Company could borrow up to an additional \$20.0 million in aggregate term loans on or before April 30, 2022, however this option was not used and expired.

#### **NOTE 9 - INCOME TAXES**

The Company incurred minimal income tax expense for the three months ended March 31, 2022, due to ongoing losses and minimum state income tax obligations. The effective income tax rate in each period differed from the federal statutory tax rate of 21% primarily as a result of the ongoing losses.

As of March 31, 2022, the Company recorded a full valuation allowance against all of its net deferred tax assets due to the uncertainty surrounding the Company's ability to utilize these assets in the future.

On March 11, 2021, the U.S. federal government enacted the American Rescue Plan Act of 2021, which did not have a material impact on our benefit for income taxes.

#### NOTE 10 - COMMITMENTS AND CONTINGENCIES

#### Legal

Following MYOS Rens Technology Inc.'s, or MYOS's and MedAvail, Inc.'s, or MAI's, announcement of the execution of the Merger Agreement on June 30, 2020, MYOS received separate litigation demands from purported MYOS stockholders on September 16, 2020 and October 20, 2020, respectively seeking certain additional disclosures in the Form S-4 Registration Statement filed with the Securities and Exchange Commission on September 2, 2020, collectively, the Demands. Thereafter, on September 23, 2020, a complaint regarding the transactions contemplated within the Merger Agreement was filed in the Supreme Court of the State of New York, County of New York, captioned Faasse v. MYOS RENS Technology Inc., et. al., Index No.: 654644/2020 (NY Supreme Ct., NY Cnty., September 23, 2020), or the New York Complaint. On October 12, 2020, a second complaint regarding the transactions was filed in the District Court of Nevada, Clark County Nevada, captioned Vigil v. Mannello, et. al., Case No. A-20-822848-C, or the Nevada Complaint, and together with the New York Complaint, the Complaints, and collectively with the Demands, the Litigation.

The Demands and the Complaints that comprise the Litigation generally alleged that the directors of MYOS breached their fiduciary duties by entering into the Merger Agreement, and MYOS and MAI disseminated an incomplete and misleading Form S-4 Registration Statement. The New York Complaint also alleged MedAvail aided and abetted such breach of fiduciary duties.

MYOS and MAI believe that the claims asserted in the Litigation are without merit, and believe that the Form S-4 Registration Statement disclosed all material information concerning the Merger and no supplemental disclosure is required under applicable law. However, in order to avoid the risk of the Litigation delaying or adversely affecting the Merger and to minimize the costs, risks and uncertainties inherent in litigation, and without admitting any liability or wrongdoing, MYOS determined to voluntarily supplement the Form S-4 Registration Statement as described in the Current Report on Form 8-K on November 2, 2020. Subsequently, the Nevada Complaint and the New York Complaint were voluntarily dismissed. The remainder of the Litigation remains outstanding. MYOS and MAI specifically deny all allegations in the Litigation and/or that any additional disclosure was or is required.

#### NOTE 11 - SHARE-BASED COMPENSATION AND WARRANTS

#### **Share-based compensation**

The following table presents the Company's expense related to share-based compensation, in thousands:

	Th	ree Months I	anded M	arch 31,	
		2022		2021	
Share-based compensation	\$	564	\$	260	

The share-based compensation expense for the three months ended March 31, 2022, included \$0.03 million from 2020 ESPP expense. Expense remaining to be recognized for unvested option awards from the 2012, 2018, and 2020 plans as of March 31, 2022 was \$2.7 million, which will be recognized on a weighted average basis over the next 3.2 years. Expense remaining to be recognized for unvested RSU awards was \$2.7 million will be recognized on a weighted average basis over the next 2.7 years.

The following table presents the Company's outstanding option awards activity during the three months ended March 31, 2022:

(in thousands, except for share and per share amounts)	Number of Awards	•	Weighted Average Exercise Price	Weighted Average Share Price on Date of Exercise	A	eighted verage ir Value	Weighted Average Remaining Contractual Life (Years)	ggregate insic Value
Outstanding, beginning of period	2,848,903	\$	2.78		\$	1.44		\$ 31
Granted	1,749,015		1.18			0.85		_
Exercised/Released	_		_			_		_
Expired	(117,730)		2.11			1.15		_
Forfeited	(127,617)		3.18			1.66		_
Outstanding, end of period	4,352,571	\$	2.15		\$	1.21	8.54	\$ 40
Vested and exercisable, end of the period	1,710,753		2.17			1.07	6.88	_
Vested and unvested exercisable, end of the period	1,710,753		2.17			1.07	6.88	_
Vested and expected to vest, end of the period	4,095,070		2.16			1.21	8.47	38

During the three months ended March 31, 2022, the Company granted approximately 1.2 million restricted stock units or RSUs to employees with a weighted average fair value of \$1.20 per RSU and total aggregate intrinsic value of \$1.4 million. 12,048 RSUs vested and 26,074 RSU's were forfeited during the three months ended March 31, 2022.

As of March 31, 2022 and December 31, 2021, there was an aggregate of 2.1 million and 3.4 million shares of common stock, respectively, available for grant under the 2020 Plan.

In April 2022, the Company adopted the MedAvail Holdings, Inc. 2022 Inducement Equity Incentive Plan or the Inducement Plan. The Inducement Plan reserved 1,500,000 shares of the Company's common stock for issuance pursuant to equity awards granted under the Inducement Plan. On April 8, 2022, the Company issued inducement awards to employees that included options to purchase 426,500 shares of Company common stock, and 426,500 RSUs. The inducement stock options have an exercise price of \$1.96, and 25% of the shares vest on the one year anniversary of the date that employment commenced, and an additional one forty-eighth (1/48th) of the shares vest monthly thereafter. The inducement RSUs vest at one-third (1/3rd) of the shares on the first, second and third yearly anniversaries of March 1, 2022.

#### Warrants

During the three months ended March 31, 2022 no warrants were issued or exercised. There were 626,339 related party warrants outstanding as of March 31, 2022.

#### NOTE 12 - REVENUE AND SEGMENT REPORTING

Operating segments are the individual operations that the chief operating decision maker, or CODM, who is our chief executive officer, reviews for purposes of assessing performance and making resource allocation decisions. The CODM currently receives the monthly management report which includes information to assess performance. The retail pharmacy services and pharmacy technology operating segments both engage in different business activities from which they earn revenues and incur expenses.

The Company has the following two reportable segments:

# **Retail Pharmacy Services Segment**

Retail Pharmacy Services segment revenue consists of products sold directly to consumers at the point of sale. MedAvail recognizes retail pharmacy revenue, net of taxes and expected returns, at the time it sells merchandise or dispenses prescription drugs to the customer. The Company estimates revenue based on expected reimbursements from third-party payers (e.g., pharmacy benefit managers, insurance companies and governmental agencies) for dispensing prescription drugs. The estimates are based on all available information including historical experience and are updated to actual reimbursement amounts.

# **Pharmacy Technology Segment**

The Pharmacy Technology Segment consists of sales and subscriptions of MedPlatform systems to customers. These agreements include providing the MedCenter prescription dispensing kiosk, software, and maintenance services. This generally includes either an initial lump sum

payment upon installation of the MedCenter with monthly payments for software and services following, or monthly payments for the MedCenter along with monthly payments for software and maintenance services for subscription agreements.

The following table presents revenue and costs of products sold and services by segment, in thousands:

	Ret	ail Pharmacy Services	Pharmacy Technology	Total
Three Months Ended March 31, 2022

Canada		420	555
Total long-lived assets	\$	8,803	\$ 8,230

#### **NOTE 12 - SUBSEQUENT EVENTS**

On March 30, 2022, the Company entered into a Securities Purchase Agreement, or Purchase Agreement, with certain purchasers thereto, or the Investors. Pursuant to the Purchase Agreement, the Company agreed to issue and sell to the Investors in a private placement, or the Private Placement, up to 47.1 million shares, or the Shares, of the Company's Common Stock, and to issue warrants, or the Warrants, to purchase up to 23.5 million shares of Common Stock, or Warrant Shares. The Shares and the Warrants were or will be sold at two closings as further described below, at a price per share of \$1.0625.

Each Investor purchasing Shares in the Private Placement was or will also be issued a Warrant to purchase that number of Warrant Shares equal to 50% of the number of Shares purchased under the Purchase Agreement by such Investor. The Warrants have a per share exercise price of \$1.25 and will be exercisable by the holder at any time on or after the issuance date of the Warrant for a period of five years. If the Warrants were exercised in full by the Investors, the Company would receive additional gross proceeds of up to \$29.4 million. In addition, the Warrant terms provide the Company with a call option to force the Warrant holders to exercise up to two-thirds of the warrant shares subject to each Warrant, with one-third of the Warrant Shares being callable beginning on each of the 12 month and 24 month anniversaries of the Warrant issuance dates, in each case until the expiration of the Warrants, and subject to the satisfaction of certain pricing conditions relating to the trading of the Company's shares. If the Company were to exercise the contingent call options, approximately \$19.6 million in additional equity could be raised.

On April 4, 2022, the first closing of the Private Placement occurred, in which 37.6 million shares of Common Stock for \$40.0 million in gross proceeds, and Warrants exercisable for up to 18.8 million Warrant Shares were sold and issued by the Company, and pursuant to which the Company received \$40.0 million in gross proceeds, before deducting placement agent commissions and other offering expenses. A second and final closing is expected to occur in July 2022, subject to the satisfaction or wavier of certain conditions to closing, pursuant to which the Company shall sell and issue, and the Investors shall purchase, an additional 9.4 million shares of Common Stock for \$10.0 million in additional gross proceeds and Warrants exercisable for up to 4.7 million Warrant Shares.

#### Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our audited historical consolidated condensed financial statements for the year ended December 31, 2021, which are included in the Annual Report on Form 10-K, filed with the Securities and Exchange Commission on March 29, 2022, and our unaudited consolidated condensed financial statements for the three months ended March 31, 2022 included elsewhere in this Quarterly Report on Form 10-Q. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks, uncertainties and other factors. Actual results could differ materially because of the factors discussed below or elsewhere in this Quarterly Report on Form 10-Q. See Part II, Item 1A. "Risk Factors" of this Quarterly Report on Form 10-Q, and Part I, Item 1A. "Risk Factors" of the 2021 Form 10-K for the year ended December 31, 2021. Unless otherwise indicated or the context otherwise requires, references herein to "MedAvail," "MedAvail Holdings," "we," "us," "our," and the "Company" refers to MedAvail Holdings, Inc. and its subsidiaries.

#### Overview

We are a technology-enabled retail pharmacy technology and services company, we have developed and commercialized an innovative self-service pharmacy, mobile application, kiosk, and drive-thru solution. Through our full-stack pharmacy technology platform, and personal one-on-one service, we bring pharmacy-dispensing capability to the point of care, resulting in lower costs, higher patient satisfaction, improved medication adherence, and better health outcomes.

We offer a unique, pharmacy technology solution which is anchored around our core technology called the MedAvail MedCenter™, or the MedCenter. The MedCenter enables on-site pharmacy in medical clinics, retail store locations, employer sites with and without onsite clinics, and any other location where onsite prescription dispensing is desired. The MedCenter establishes an audio-visual connection to a live pharmacist enabling prescription drug dispensing to occur directly to a patient while still providing real-time supervision by a pharmacist. Although our technology platform has broad application, we are currently focused on serving high-value Medicare members in the United States of America, or U.S.

We currently deploy the MedCenter solution through two distinct commercialization channels. First, we own and operate a full retail pharmacy business in the U.S. under the name SpotRx<sup>TM</sup>, or SpotRx. The SpotRx pharmacy business is structured as a hub-and-spoke model where a central pharmacy supports and operates MedCenter kiosks embedded in medical clinics, usually in close proximity to the central pharmacy. The second commercialization channel is a direct 'sell-to' model, whereby we sell the MedCenter technology and subscriptions for the associated software directly to large healthcare providers and retailers for use within their own pharmacy operations.

The MedCenter kiosk works in tandem with our Remote Dispensing System®, or the Remote Dispensing System, which consists of customer-facing software for remote ordering of medications for pick-up at a MedCenter, or next day home delivery. Supporting our MedCenter kiosks and Remote Dispensing System is our back-end MedPlatform® Enterprise Software, or the MedPlatform Enterprise Software, which controls dispensing and MedCenter monitoring; and supporting Pharmacy Management System software, which allows connection to our supporting team of pharmacists and kiosk administrators.

Our kiosks come in two models: the M4 MedCenter and the M5 MedCenter. The M4 MedCenter kiosk is designed to fit in waiting rooms, hallways, and lobbies. The M5 MedCenter is a larger kiosk designed as a full pharmacy replacement with the ability to serve 3-4 customers simultaneously. It can also be configured for drive through dispensing, similar to bank ATM drive through lanes.

Traditional retail pharmacies are built around a physical store front. In order to dispense medication, these stores must have a pharmacist onsite for all hours of operation. Many pharmacies have reduced hours of operation based on customer purchasing patterns in order to contain labor cost, which results in further reduced consumer access. Furthermore, retail pharmacy wait times are typically 30 to 60 minutes or more, causing substantial delays for the consumer. During the COVID-19 pandemic, many people are looking to minimize the amount of physical contact that can lead to further disease contraction, especially for those most vulnerable, such as the elderly or those with compromised immune systems. Consequently, some patients are foregoing filling their prescribed medications, leading to declining health, increased healthcare costs and increased morbidity.

#### Components of Operating Results for the Three Months Ended March 31, 2022

We have never been profitable and we incurred operating losses in each year since inception. Our net losses were \$13.0 million and \$9.5 million for the three months ended March 31, 2022 and 2021, respectively. As of March 31, 2022, we had an accumulated deficit of \$205.1 million. Substantially all of our operating losses resulted from expenses incurred in connection with building out our retail pharmacy services operating footprint and from general and administrative costs associated with our operations.

We expect to incur significant additional expenses and operating losses for the foreseeable future as we initiate and continue the technology development, deployment of our MedCenter technology and adding personnel necessary to operate as a public company with rapidly growing

retail pharmacy operations in the United States. In addition, operating as a publicly traded company involves the hiring of additional financial and other personnel, upgrading our financial information systems and incurring costs associated with operating as a public company. We expect that our operating losses will decrease and turn positive as we execute our growth strategies within our operating segments. If our management accelerates deployment into new states, operating losses could increase in the near-term, as we grow and scale our operations; we expect operating performance to turn positive once each state reaches sufficient scale in sales volume.

As of March 31, 2022, we had cash and cash equivalents of \$5.3 million. We will continue to require additional capital to continue our technology development and commercialization activities and build out our pharmacy operations to serve our growing customer base. Accordingly, in November 2020 and April 2022 we completed the sale of additional equity through a private placement funding, where we raised \$83.9 million, and \$40.0 million, respectively. Additionally, in June 2021 we entered into a term loan and borrowed \$10.0 million. We expect to raise additional capital to continue funding operations. The amount and timing of future funding requirements will depend on many factors, including the pace and results of our growth strategy and capital market conditions. Failure to raise capital as and when needed, on favorable terms or at all, would have a negative impact on our financial condition and our ability to develop product candidates.

We have two reportable segments: Retail Pharmacy Services and Pharmacy Technology. These reportable segments are generally defined by how we execute our go-to-market strategy to sell products and services.

#### **Overview of Retail Pharmacy Services Segment**

The Retail Pharmacy Services operating segment operates as SpotRx, or the Pharmacy, a full-service retail pharmacy utilizing our automated pharmacy technology, primarily servicing Medicare patients in the United States. In operating SpotRx, we employ the pharmacy team, purchase the medications, and deploy our proprietary technology, the MedCenter, directly into the Medicare-focused clinics. This is an end-to-end turnkey solution.

#### **Overview of Pharmacy Technology Segment**

MedAvail Technologies develops and commercializes the MedCenter for direct sale or subscription to third-party customers, including some of the world's largest healthcare providers and systems, as well as large retail chains that provide full retail-pharmacy services using our technology.

#### Results of Operations for the Three Months Ended March 31, 2022

#### Revenue - Retail Pharmacy and Hardware and Service

#### Retail pharmacy and hardware revenue

Retail pharmacy revenue from the Retail Pharmacy Services segment are derived from sales of prescription medications and over-the-counter products to patients. Medications are sold and delivered by various methods including dispensing product directly from the MedCenter, patient pick up at MedAvail's SpotRx pharmacy locations or home delivery of medications to patient residences. Hardware sales from the pharmacy technology segment are derived from either the sales or subscription of the MedCenter to customers.

#### Service revenue

Services revenue from the Pharmacy Technology Segment is derived from installation and support services.

#### Revenue

	Three Months Ended March 31,			2022 vs. 2021		
		2022	2021	An	ount Change	% Change
Pharmacy and hardware revenue:			(in thou	sano	ds)	
Retail pharmacy revenue	\$	8,849	\$ 3,418	\$	5,431	159 %
Hardware		56	241		(185)	(77)%
Subscription		109	122		(13)	(11)%
Total pharmacy and hardware revenue		9,014	3,781		5,233	138 %
Service revenue:						
Software integration		_	_		_	— %
Software		48	33		15	45 %
Maintenance and support		32	31		1	3 %
Installation		6	16		(10)	(63)%
Professional services and other		14	166		(152)	(92)%
Total service revenue		100	246		(146)	(59)%
Total revenue	\$	9,114	\$ 4,027	\$	5,087	126 %

During the three months ended March 31, 2022, retail pharmacy and hardware revenue increased \$5.2 million to \$9.0 million compared to the same period in 2021. The \$5.2 million increase was due to a \$5.4 million increase from volume growth in prescription revenue at existing sites and additional sites launched in Florida and Michigan throughout 2021 and continuing into 2022, offset by the decrease in hardware revenue from the first quarter 2021.

During the three months ended March 31, 2022, service revenue decreased \$0.15 million to \$0.10 million compared to the same period in 2021.

# Cost of Products Sold and Services

# Retail pharmacy and hardware cost of products sold

Cost of products sold consists primarily of prescription medications, and other over-the-counter health products; and costs associated with MedCenters sold to third-party customers.

#### Service costs

Service costs consists primarily of costs incurred to install and maintain MedCenters at third-party customer locations.

# Costs of Products and Services

	Three Months Ended March 31,				2022 vs. 2021		
		2022	2021	Am	ount Change	% Change	
Retail pharmacy and hardware cost of products sold:			(in thou	isanc	ls)		
Prescription drugs	\$	7,856	\$ 3,060	\$	4,796	157 %	
Shipping		625	270		355	131 %	
Hardware		56	150		(94)	(63)%	
Depreciation		26	46		(20)	(43)%	
Total retail pharmacy and hardware cost of products sold		8,563	3,526		5,037	143 %	
Service costs:							
Professional services		1	142		(141)	(99)%	
Maintenance and support services		45	28		17	61 %	
Installation services		4	11		(7)	(64)%	
Total service costs		50	181		(131)	(72)%	
Total cost of products sold and services	\$	8,613	\$ 3,707	\$	4,906	132 %	

During the three months ended March 31, 2022, retail pharmacy and hardware cost of products sold increased \$5.0 million to \$8.6 million compared to the same period in 2021. The increase was primarily due to costs associated with volume growth in prescription sales at existing sites and additional sites launched in Florida and Michigan throughout 2021 and continuing into 2022. Shipping costs, related to our home delivery service via third-party courier, increased \$0.4 million compared to the same period in 2021.

During the three months ended March 31, 2022, service costs were reasonably consistent with the same period in the prior year.

#### **Pharmacy Operations**

Pharmacy operations consist of costs incurred to operate retail pharmacies and our call center. Wages and salaries consist of compensation costs incurred for all pharmacy operations related employees and contractors including bonuses, health plans, severance, and contractor costs. Facility expenses consist of rent and utilities directly associated with our pharmacy operations.

Other pharmacy operations expenses consist of supply costs, and other costs.

Depreciation of property, plant and equipment includes depreciation on MedCenters, IT equipment, leasehold improvements, general plant and equipment, software, office furniture and equipment and vehicles. Amortization of intangible assets consists of amortization of mobile applications and software.

	Three Months Ended March 31,			2022 vs. 2021		
		2022	2021	Aı	mount Change	% Change
Pharmacy operations expenses:		(in th			ds)	
Wages and salaries	\$	2,959	\$ 2,13	<b>35 \$</b>	824	39 %
Rent, utilities, and other		502	1	'1	331	194 %
Depreciation of property, plant and equipment		227	20	8	19	9 %
Amortization of intangible assets		122	,	84	88	259 %
Repairs and maintenance		119	4	<b>!</b> 5	74	164 %
Total pharmacy operations expenses	\$	3,929	\$ 2,59	3 \$	1,336	52 %

During the three months ended March 31, 2022, pharmacy operations expenses increased \$1.3 million to \$3.9 million compared to the same period in 2021. This increase was primarily due to having one additional central pharmacy location in 2022 compared to the same period in 2021. Additionally, volume growth continued to ramp at existing pharmacy locations, thus increasing pharmacy personnel and supplies, resulting in increased wages, salaries, and operating costs. Amortization of intangible assets has increased as a result of deploying internally developed software in our pharmacy operations.

#### General and Administrative

General and administrative expenses consist of personnel costs, facility expenses and expenses for outside professional services, including legal, audit and accounting services. Personnel costs consist of salaries, benefits and share-based compensation. Facility expenses consist of rent and other related costs specific to our corporate and technology activities. Corporate insurance, office supplies and technology expenses are also captured within general and administrative expenses. We incurred and expect to incur additional expenses as a result of being a public company, including expenses related to compliance with the rules and regulations of the Securities and Exchange Commission, or SEC, Nasdaq, additional insurance, investor relations and other administrative expenses and professional services.

We have a stock option plan whereby awards are granted to certain of our employees. The fair value of the stock options and restricted stock units granted by us to our employees is recognized as compensation expense on a straight-line basis over the applicable vesting period. We measure the fair value of the stock options using the Black-Scholes option pricing model as of the grant date. Shares issued upon the exercise of stock options and vesting of restricted stock units are new shares. We estimate forfeitures based on historical experience and expense related to awards is adjusted over the term of the awards to reflect their probability of vesting. All fully vested awards are expensed.

7	Three Months I	Ended March 31,	2022 vs. 2021		
	2022	2021	Amount Change	% Change	
		(in thou	isands)		
\$	3,488	\$ 2,918	\$ 570	20 %	
	834	1,045	(211)	(20)%	
	569	260	309	119 %	
	508	458	50	11 %	
	360	185	175	95 %	
	569	539	30	6 %	
	102	75	27	36 %	
	72	155	(83)	(54)%	
	33	41	(8)	(20)%	
\$	6,535	\$ 5,676	\$ 859	15 %	
		\$ 3,488 834 569 508 360 569 102 72 33	\$ 3,488 \$ 2,918 834 1,045 569 260 508 458 360 185 569 539 102 75 72 155 33 41	2022         2021         Amount Change           \$ 3,488         \$ 2,918         \$ 570           834         1,045         (211)           569         260         309           508         458         50           360         185         175           569         539         30           102         75         27           72         155         (83)           33         41         (8)	

During the three months ended March 31, 2022, general and administrative costs increased approximately \$0.9 million to \$6.5 million compared to the same period in 2021. This increase was primarily due to hiring additional administrative staff, increased share based compensation, as well as other investments necessary for our growth as a public company.

# Selling and Marketing

Selling and marketing expenses consist of personnel costs, marketing and advertising costs, and marketing related expenses for outside professional services. Wages and salaries consist of compensation costs incurred for all selling and marketing employees including our in clinic customer account managers, and contractors including bonuses, health plans, and severance.

	Three Months Ended March 31,				2022 vs. 2021		
		2022		2021		ount Change	% Change
Selling and marketing expenses:	(in t			(in thou	sands	)	
Wages and salaries	\$	2,094	\$	1,362	\$	732	54 %
Travel and other employee expenses		130		38		92	242 %
Marketing		74		129		(55)	(43)%
Other selling and marketing expenses		15		5		10	200 %
Total selling and marketing expenses	\$	2,313	\$	1,534	\$	779	51 %

During the three months ended March 31, 2022, selling and marketing costs increased approximately \$0.8 million to \$2.3 million compared to the same period in 2021. This increase was primarily due to personnel related costs associated with hiring additional Clinic Account Managers (CAMs) and Regional Directors, which directly support the staff and patients at the medical clinics where we are deployed.

# Research and Development

Research and development expenses represent costs incurred to develop and innovate our MedCenter platform technology, including development work on hardware, software and supporting information technology infrastructure. Wages and salaries consist of compensation costs incurred for research and development employees and contractors including bonuses, health plans, severance, and contractor costs.

	Three Months Ended March 31,				s. 2021									
	2022 2021		2022 2021		2021		2022 2021		2021		2022 2021		ount Change	% Change
Research and development expenses:			(in the	ousand	s)									
Wages and salaries	\$	191	\$ 163	\$	24	14 %								
Other expenses		302	=	-	301	30,100 %								
Total research and development expenses	\$	493	\$ 168	\$	325	193 %								

During the three months ended March 31, 2022, research and development costs increased approximately \$0.3 million. This increase was primarily due to ongoing product improvement activities, including efforts to integrate our MedPlatform® Enterprises Software with the EPIC pharmacy management system.

#### Interest Income and Expense

Interest expense consists of accrued interest on outstanding debt and is payable monthly.

	Three Months Ended March 31,				2022 vs. 2021		
		2022		2021 Amou		ount Change	% Change
Interest income:	(in tho				nousands)		
Interest income	\$	1	\$	40	\$	(39)	(98)%
Total interest income	\$	1	\$	40	\$	(39)	(98)%
Interest expense:							
Interest expense	\$	(254)	\$	(2)	\$	(252)	12,600 %
Total interest expense	\$	(254)	\$	(2)	\$	(252)	12,600 %

During the three months ended March 31, 2022, interest expense increased compared to the same period in 2021 due to entering into a term loan in June 2021. For more detail on outstanding debt and associated maturities, see Note 8 to the unaudited consolidated condensed financial statements presented elsewhere in this Quarterly Report on Form 10-Q.

#### **Liquidity and Capital Resources**

#### Sources of Liquidity

Since inception through March 31, 2022, our operations have been financed primarily by net cash proceeds from the sale of stock from private placements, the sale of redeemable preferred stock and debt. As of March 31, 2022, we had \$5.3 million in cash and cash equivalents and an accumulated deficit of \$205.1 million. We added to our liquidity resources in 2021 through a senior secured term loan facility with Silicon Valley Bank or the Loan Agreement, pursuant to which we have borrowed \$10.0 million in aggregate initial term loans. In April 2022, we completed a private placement, pursuant to which we received \$40.0 million in gross proceeds before deducting placement agent commissions and other offering expenses. An additional \$10.0 million in gross proceeds is expected to close on July 1, 2022, subject to the satisfaction or waiver of certain conditions to closing.

In connection with the private placement, we issued callable warrants in April 2022 and expect to issue additional callable warrants in July 2022. The warrant call option is exercisable by us beginning on each of the 12 month and 24 month anniversaries of the warrant issuance dates and subject to the satisfaction of certain pricing conditions relating to the trading of our shares. If the warrants are exercised in full by the Investors, we would receive additional gross proceeds of up to \$29.4 million. If we exercise our call option, then we could raise up to an additional \$19.6 million.

Management is also exploring additional sources of financing, the success of which is dependent on market conditions. Management has concluded that the aforementioned conditions, including the ongoing uncertainty related to the negative impacts of the COVID-19 pandemic and the uncertainties related to the conflict in Ukraine resulting from the military actions of Russia, including on the global economy and our supply chain, raise substantial doubt about our ability to continue as a going concern within 12 months from the date of issuance of the financial statements. Our plans to address this uncertainty include raising additional funding, as necessary, through public or private equity or debt financings.

However, we may not be able to secure additional financing in a timely manner or on favorable terms, if at all. Furthermore, if we issue equity securities to raise additional funds, our existing stockholders may experience dilution, and the new equity securities may have rights, preferences and privileges senior to those of our existing stockholders. Failure to raise capital as and when needed, on favorable terms or at all, would have a negative impact on our financial condition and our ability to develop our product candidates. Our management actively evaluates matters of liquidity and growth capital needs, including evaluating debt and equity as sources of growth capital with a focus on lower overall weighted average cost of capital and favorable financing terms. Our primary uses of liquidity are operating activities, capital expenditures, and lease payments.

#### Cash Flows

The following table summarizes our cash flows for the three months ended March 31, 2022 and 2021:

	Three Months Ended March 31,			2022 vs. 2020					
(In thousands)	2022		2022		2022		2021	<b>Amount Change</b>	% Change
Cash used in operating activities	\$	(13,264)	\$ (9,830)	\$ (3,434)	35 %				
Cash used in investing activities		(852)	(712)	(140)	20 %				
Cash (used in) provided by financing activities		(23)	189	(212)	(112)%				
Net decrease in cash and cash equivalents, and restricted cash	\$	(14,139)	\$ (10,353)	\$ (3,786)	37 %				

#### **Operating Activities**

During the three months ended March 31, 2022, cash used in operating activities increased \$3.4 million to \$13.3 million compared to the same period in 2021. The increase was primarily due to an increase in inventory, operating expenses from wages and salaries, and costs attributable to the launch and growth of our retail pharmacy operations in Arizona, California, Michigan, and Florida, and operating as a public company.

#### **Investing Activities**

During the three months ended March 31, 2022, cash used in investing activities increased \$0.1 million to \$0.9 million compared to the same period in 2021. The increase was primarily due to an increase in investment in property, plant and equipment and intangible assets associated with investments in Retail Pharmacy Services operations in Arizona, California, Michigan, and Florida.

#### **Financing Activities**

During the three months ended March 31, 2022, cash provided by financing activities decreased \$0.2 million to \$0.0 million compared to the same period in 2021. During the three months ended March 31, 2021, the activity was primarily from the issuance of common stock due to the exercise of options and warrants, with no similar activity during the three months ended March 31, 2022.

#### **Critical Accounting Estimates**

There were no significant changes in our critical accounting estimates in the three months ended March 31, 2022, from those previously disclosed in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on March 29, 2022.

# **Recent Accounting Pronouncements**

For a discussion of recent accounting pronouncements, see Part II, Item 8, Note 5 of our Annual Report on Form 10-K for the year ended December 31, 2021, filed with the SEC on March 29, 2022, and Note 4: "Recent Accounting Pronouncements" in the notes to our unaudited consolidated condensed financial statements included elsewhere in this Quarterly Report Form 10-Q.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a "smaller reporting company", we are not required to provide the information required by this Item.

#### **Item 4. Controls and Procedures**

#### **Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

#### **Changes in Internal Control Over Financial Reporting**

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### **Limitations on Effectiveness of Controls and Procedures**

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

#### **PART II**

# **Item 1. Legal Proceedings**

The information set forth under the heading "Legal" in Note 10, Commitments and Contingencies, in Part I, Item 1 of this Quarterly Report on Form 10-Q is incorporated herein by reference.

#### Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in Part I, Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2021, or the "2021 Annual Report, filed with the Securities and Exchange Commission on March 29, 2022. The risk factors described in our 2021 Annual Report, as well as other information set forth in this Quarterly Report on Form 10-Q, could materially adversely affect our business, financial condition, results of operations and prospects, and should be carefully considered. The risks and uncertainties that we face, however, are not limited to those described in the 2021 Annual Report. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business and the trading price of our securities, particularly in light of the fast-changing nature of the COVID-19 pandemic, containment measures and the related impacts to economic and operating conditions.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds  None.
Item 3. Defaults Upon Senior Securities
None.
Item 4. Mine Safety Disclosures
None.
Item 5. Other Information
None.

#### CERTIFICATION OF CHIEF EXECUTIVE OFFICER

Pursuant to
Securities Exchange Act Rules 13a-14(a) and 15d-14(a),
As Adopted Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002

#### I, Mark Doerr, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of MedAvail Holdings, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

# CERTIFICATIONS OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER

Pursuant to 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report of MedAvail Holdings, Inc. (the "Company") on Form 10-Q for the quarterly period ended March 31, 2022, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Mark Doerr, as Chief Executive Officer of the Company, and Ramona Seabaugh, as Chief Financial Officer, each hereby certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:

- 1. The Report, fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended; and
- 2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
